

PA807

Faced with escalating prices for a diminishing number of older instruments in playable condition, ever-increasing numbers of serious amateur and professional musicians are now turning to the traditionally trained Master makers at Paesold. These artisans fulfill the musician's need for an instrument capable of filling concert halls with the rich powerful sonority of sound that once was believed only possible from older instruments.

MASTER VIOLINS AND VIOLAS

Paesold Master Instruments are crafted using only the most beautifully flamed, highest quality maple and spruce. Paesold masters handcraft instruments in the style of Stradivari, Guarneri, Bergonzi, Ruggeri, Vuillaume and several other old masters. After many years of experimentation and acoustic research Paesold has developed innovative varnish formulas, to ensure every instrument combines outstanding acoustic properties with an exceptional aesthetic appeal. As with all masterpieces, Paesold instruments have proven to increase in value with age, making all Paesold instruments not only aesthetically and sonically superior but also an excellent investment. Accompanying each master instrument from Paesold is a certificate of authenticity signed and dated by the Paesold master who built it, instrument details and three photographs of your instrument.
